ZIPPY TRUCK REPAIRS

*Your one stop shop
for Truck Repairs!*

With over 15 years of experience, our Zippy shops are designed and staffed to provide fast & efficient quality service and no appointment necessary. Zippy technicians provide an array of services to support you and the **longevity and maintenance** of your heavy duty diesel truck. From a simple oil change service, to a long-term emission system maintenance plan we have the staff and top of the line **technology** to support you!

Zippy Lube Oil & Service

- Tractor & trailer chassis lube
- 5th wheel and wheel hub service
- Synthetic and conventional gear oil

Zippy BIT Inspections

90 Day inspections to avoid being placed out of serviced during roadside inspections and avoid fines/penalties.

DPF Emission Services

In addition to cleaning, DPFs must have various annual inspection and maintenance requirements mandated by the original manufacturer.

Zippy Engine Diagnostics

With every visit we will offer you a free full diagnostic to reveal any services that your truck needs to ensure a safe and efficient operation.

Zippy Coolant System Service

We'll replace the old antifreeze in your radiator to prevent your cooling system from becoming corroded, overheated or frozen.

Zippy DPF Service

DPFs must be professionally cleaned. The lack of service or record-keeping of the service could lead to CARB fines and denial of warranty.

PSIP Opacity Testing

PSIP helps everyone by helping to keep our environment pollution-free. Fleet owners are required to maintain inspection and repair records for each truck.

Brake & Clutch Adjustment

These components should be checked regularly to keep your entire truck in great shape and operating safely to prevent accidentals.

Truck Repairs

Bumper to bumper diagnostics and repairs.

Transmission & Differential

We'll remove old fluid and replace it with clean, high quality transmission fluid and differential fluid to renew your truck's lubrication.
